Education

Cebu Roosevelt Memorial Colleges — Bogo City, Cebu
Bachelor of Science in Information Technology — June 2019 - July 2023

Experience

Tech - Desk Computer Graphic Services — Bogo, Cebu, Philippines
Software Engineer Intern — February 2023 - July 2023

- Worked with drive and determination to aid team success against software design and deployment targets
- Used extensive practical and theoretical understanding of various coding languages to aid software development mainly using C# .Net, Entity Framework, MVC and LINQ
- Identified and suggested software improvements to make it easier to use and eliminate user error.

Virginia Food Inc. — Cebu, Philippines
Application Developer — October 2023 - Present

- Enhanced and maintained the Sales Information System Web by creating clear, effective, and manageable code utilizing frameworks like CodeIgniter and Laravel, server-side languages like PHP, and databases like SQL.
- Developed and improved the Sales Information System by building user-friendly Android applications in Java, optimizing functionality, and ensuring smooth connectivity with server-side systems and databases.
- Ensured the security of API endpoints, implementing authentication and authorization mechanisms to protect sensitive data.
- Developed desktop applications using C# and the .NET framework, providing intuitive user interfaces and efficient functionality.
- Implemented database queries and stored procedures to facilitate efficient data retrieval and manipulation.
- Worked with cloud technologies in AWS, including EC2 for hosting, RDS for database management, S3 for storage, Route 53 for DNS management, and VPC for secure networking configurations.
- Developed a Flutter/Dart mobile application using BLoC and Provider architecture for a sales information system, integrating real-time communication with backend servers.

Skills

Programming Languages:	Java, JavaScript, C#, PHP, Dart
Frameworks:	Laravel, .NET, CodeIgniter, Bootstrap, Flutter
Relational Database Management System:	MySQL, MSSQL, SQLite
Tools/Technologies:	AWS (EC2, RDS, S3, Route 53, VPC), Git, jQuery

Awards & Certificates

Programmer of the Year — College of Computer Studies Dept.
Demonstrated outstanding technical skills, innovative problem-solving, and a significant impact on the field of programming. — July 2023

Outstanding Intern — Tech - Desk Computer Graphic Services
Exhibited exceptional dedication, enthusiasm, and skill during internship. — July 2023

Java(Basic) Certificate — HackerRank
Demonstrated proficiency in foundational Java programming concepts, including variables, data types, operators, control flow statements, and basic object-oriented programming principles — July 2023

Problem Solving(Intermediate) Certificate — HackerRank
Demonstrated the ability to approach and solve intermediate-level algorithmic challenges using problem-solving techniques and data structures. — Aug 2023

SQL (Intermediate) — HackerRank
Demonstrated the ability to build complex queries, optimize data retrieval, and work effectively with relational databases. — Nov 2025
